"Passion Play" Star to Speak in Production

Miss Amy Rutz, Who Has Twice Played the "Virgin Mary" Role in the "Passion Play" Here Tuesday

ILLUSTRATED LECTURE

Miss Amy Rutz, who has twice played the role of the "Virgin Mary" in the famous "Passion Play" Oberammergau, will be a guest at the College on Tuesday, Nov. 16, at 10:00 o'clock at the assembly program in the auditorium.

The topic of the lecture is "The Passion Play as Seen Through the Eyes of Miss Amy Rutz." The lecture will be illustrated with 100 lantern slides showing the picturesque setting of the world's most famous stage and scenes from the latest dramatic production of the play.

Comments received concerning the lecture indicate that her topic is of interest and well presented.

Frederic to Present Program in Assembly Tomorrow

Dr. Frederic, noted pianist, who will appear in concert for the Dad's assembly tomorrow at 10:30 o'clock, will present the following program:

STATE PRESIDENT

Dr. Blanche H. Dow, chairman of the department of French, state president of the American Association of University Women, will give seven lectures at Booneville, Cape Girardeau, Flat River and St. Louis branches of the A.A.U.W. between Nov. 11 and 19.

CLASSES CUT

Nine and ten o'clock classes will be cut fifteen minutes short in the morning because of the Dad's day assembly which will begin at 10:30.

S.T.C. Graduate Makes Telescope to Count Cosmic Rays

Densil Cooper Wins Praise for His Work at University of Missouri

Densil Cooper, a graduate of the College in the class of 1936, was mentioned recently in the University of Missouri's paper, "The Columbia Missourian," for his work in the physics department of the university. He is a nephew of Mr. Bert Cooper, head of the extension division here.

The article follows:

Densil Cooper, a graduate student (Continued on page 2)

INJURED COLLEGE HIGH STUDENT TO ST. JOSEPH

Mabel Carmichael, College high school student who was seriously injured in an automobile accident southwest of Maryville on October 29, has been removed from the St. Francis hospital for further treatment in a St. Joseph hospital.

Charles Bracken, the other high school student who was injured in the same accident, has been taken home from the hospital and is expected back in school within a few days.

"Hay Fever" to Be Presented By O'Neillian Club

Tentative Cast for Noel Howard Play Is Announced by Dr. J. P. Kelly

NO DEFINITE DATE ANNOUNCED

Dr. J. P. Kelly, chairman of the department of speech, this week announced the tentative cast of characters for the play "Hay Fever," which will be presented by the O'Neillian dramatics club at the College in the near future.

The following cast of characters was announced by Dr. Kelly: Mother, Judith Bliss, Drury Davis; Father, David Bliss, William Hutchinson; Sorel, the daughter, Lois McCartney; Simon Bliss, the son, Stewart Queen or John Cox.

Myra Arendel, Irene Nelson or Katherine Shulte; Richard Gratin, (Continued on page 8)

Dads to See Eagles Battle Bearcats in Final Home Game

Central College of Fayette Has Strong Team to Pit Against Maryville Eleven

The local Bearcats will be "shoot-in" the works" tomorrow afternoon against the Central Eagles of Fayette in an attempt to break a three-game losing streak. With the dads looking on, the setting should be ideal for a rousing tussle.

This is the final home game of the season and the final appearance before the home fans of five Bearcats. They are: John Zuchowski, end, St. Joseph; Walter Moore, halfback, Richmond; R. C. "Zeke" Kiou, tackle, Carroll, Ia.; Everett Richards, center, Thomasville, Georgia; Harry Irvine, tackle, Fairfax.

Coach Milner has been working his charges until dark this week in an effort to secure better team play. Inability to make their breaks because of inexperience has hurt the locals all season, and only through long drills can it be overcome.

The squad, with the exception of Walter Moore is in good condition. Moore sustained a rib injury in the Midland game and has never fully recovered.

Central, without a victory since 1935 until last Friday when they (Continued on page 8)

FORMER TEACHER IS AUTHOR OF BOOK

Raymond V. Cradit, former teacher of accounting in the College from 1926 to 1928, is the author of a new book, "Bookkeeping for Business and Personal Use." Mr. Cradit is now associated with the Central Y. M. C. A. College of Chicago.

Dads to Arrive At College Tomorrow for Annual Day

ANNOUNCEMENT

The Northwest Missouri State Teachers College luncheon at the Teachers meeting next week-end in St. Louis will be held in Private Dining Room 1, second floor, Hotel Jefferson, 12th and Locust, Thursday, Nov. 18 at 11:30 a.m. The price per plate is \$1.25. Send reservations to Mrs. Harold Greeson, 5370 Pershing Ave., St. Louis, Mo.

INDUSTRIAL ART CLUB

The industrial art club of the College meets regularly each week under the auspices of Mr. Donald N. Valk, chairman of the committee. The club has not as yet been organized for the current year.

Dr. Jacobson Pleads For More Spiritual, Artistic Progress

Noted Artist Says Social Sciences Lag Far Behind in This Civilization

The past, present and future worlds were discussed by Dr. Oscar Jacobson, noted artist and lecturer, head of the school of art in Oklahoma University, in the College auditorium last Tuesday morning.

"You are fortunate to live in a small town close to nature," he stated.

Going back to grandfather's day, Dr. Jacobson said that, "life was exciting without all the modern inventions. We live in a beautiful world, which is inhabited today by a lot of wasteful resources."

Dr. Jacobson made a plea for the spiritual, artistic values in life, which, he said, are being neglected in this mechanical civilization. "Science," he stated, "has gone far ahead of us. We need to call a halt and stress the social sciences until we catch up."

President Lamkin, Norval Sayler Are On Association Program

Many Faculty Members to Attend; Classes Will Meet as Usual Here

Pres. Uel W. Lamkin and J. Norval Sayler of the College, will appear on the program at the State Teachers Association meeting in St. Louis next week-end. President Lamkin will talk on "Japan as a Missouri Teacher Sees It," and Mr. Sayler's subject will be "Across the Pacific with a Movie Camera."

Although many members of the College faculty plan to attend the meeting, classes will meet here as usual.

Mrs. Franklin D. Roosevelt will head the list of prominent speakers who will appear on the program.

REV. AND MRS. NYSTRAND ANNOUNCE BIRTH OF SON

Rev. and Mrs. Phillip O. Nystrand of Pickering announce the birth of a seven pound boy Saturday, Nov. 6, at the St. Francis hospital of this city. They have named the child Raphael Owens Nystrand. Reverend Nystrand is pastor of the Pickering Christian Church and a student of the College.

Committee Announces Plans for the Entertainment of Parents Complete

REGISTRATION TO BE AT 9 A.M.

Final arrangements have been made for this year's annual Dad's day observance. The Dad's day committee held a meeting Monday, Nov. 8, for the purpose of making final the tentative plans.

The dads will begin arriving in the morning about 9 o'clock. The first procedure will be to register at Residence Hall. At this time guides, who will be members of the committee, will be at their disposal to show them whatever interests them on the campus or within the various buildings.

At 10:30 there will be a special assembly honoring the dads. The program is as follows; varsity octet selections. This group is made up of the following men: Merrill Ostrus, Washington, Ia.; David White, Cameron; Ursle Crockett, Jr., Maryville; Edwin Tyson, Skidmore; Mynatt Breidenthal, Bethany; Ralph (Continued on page 8)

"The School and Constitution" Today's Topic

Parents Are Urged to Participate in National Education Week Tomorrow

IS 16TH ANNUAL OBSERVANCE

"The Schools and the Constitution," is the topic for consideration today in National Education Week, Nov. 7 to 13. The subject for tomorrow is "School Open House Day," and for Saturday, "Lifelong Learning."

This is the sixteenth annual observance of this occasion which is sponsored by the National Education Association in cooperation with the American Legion, the U.S. office of Education, and other national organizations.

Parents are particularly urged to visit the school tomorrow.

The general theme of the week is "Education in Our National Life."

Student Senate Social Committee To Study Conditions

Social Life of College, Policies to Be Pursued Get Attention Of Groups

The social committee of the College accepted the invitation of the Senate to meet with them for a joint discussion of the social life of the College and policies to be pursued in the future, at a meeting of the Senate Tuesday evening.

The group held an open discussion on the problem of a men's smoker, the library situation, student recreation facilities, and the social calendar.

Reports were given by Bill Maloy, Redding, Ia.; Miller Weeda, Maryville; and Frederick Schneider, Stanberry. The meeting was conducted by John Zuchowski, St. Joseph, student president.

The President Says

Some students cannot hear at some assemblies. They give as good attention as is given under those circumstances. It is hoped that the result of every program that can be heard will make every assembly worth while, and that the unsatisfactory conditions will not be made more unsatisfactory by the thoughtlessness of students who cannot hear.

The acoustics in the auditorium should be corrected, even though most good speakers can make themselves understood in an auditorium the size of ours. But the College has not had the \$5,000 which would probably take, to spend that way.

Perhaps an amplifier would help. We think we should plan to buy a sound film machine which has an amplifying device which we may use in the auditorium. There are some good ones on the market now, but one of the most reliable companies is bringing out a new one around the first of the year. We should wait to see it before we buy.

In the meantime, we hope students will sit and listen, even if they cannot hear in assembly. It will be appreciated, and perhaps the condition will be improved before the end of the winter quarter.

UEL W. LAMKIN, President

16 Men Report To Stalcup for Basketball

Only Two Lettermen Among Present Squad Members; Others to be Out After Football

SIPES, SHROUT WORKING OUT

Regular basket-ball practice started last Monday night at the gymnasium with sixteen men reporting to Coach Wilbur Stalcup. Practice will be held three of four nights each week until the end of the football season when more intensive drills will begin. At that time the squad will be bolstered by men who have been playing football.

Most of the men who reported, however, have been working out regularly the past two weeks in an effort to be in condition when hard practice grinds get under way.

The early practice sessions are being utilized to condition the men and to drill on fundamentals. Correct passing, catching, shooting, and team coordination, along with calisthenics have taken most of practice time.

Of the men reporting, only two are lettermen, Donald Sipes, Graham, and Richard ShROUT, Calhoun. However, most of the other men are rangy and fast, and some come with impressive high school records.

Following are the men reporting: Donald Johnson, Stanberry; Kenneth Dowell, Gale Donahue, Russell Dowell, Jack Salmon, all of Maryville; Dale Hackett and Beverly Sharp, Burlington Junction; Richard ShROUT and Virgil Taylor, Calhoun; William Metz, Wiota, Ia.; Thomas Goolsby, Fortescue; Merrill Ostrus, Washington, Ia.; Harold Hutcheson, Hopkins; Donald Sipes, Graham; Neil Weary, Cainsville.

Football men who are expected to report later are Hull, Walker, Zuchowski, Howell, Goslee, R. Rogers and Reital.

ELEMENTARY STUDENTS ARE ACTIVE

This year the third grade in the College elementary training school has chosen for its motif the American Indian. The youngsters have built an Indian tepee in their room and the back wall is decorated with an Indian mural drawn by the pupils. Now the pupils are weaving.

Much of their art work has been centered around the Indian, geography is related with the locations of the different tribes of Indians, Indian words are taught in spelling, Indian music is sung, and an Indian poem, "Deer Dance," was learned in choral reading. The third grade teacher is Miss Elizabeth Planck.

In the second grade the pupils have been studying foods and food products, especially wheat. They have made bread in the classroom and experimented with yeast. In order to learn more about bread and flour the pupils took a trip to St. Joseph and visited the Cripes Bakery and the Quaker Oats factory.

Last week the second grade had a dog show. In preparation for the show the pupils made cages for the dogs, made up stories and even a song in honor of the dog. Miss Horan teaches the second grade.

Early training for future journalists seems to be the theme of the first grade activities. After making a trip to the Maryville Daily Forum, the youngsters decided to publish a newspaper. When they returned from the trip they elected an editor and an associate editor and began to write news, stories, and poems. The paper was published last Friday. Miss Merritt is in charge of the first grade.

Know Your Team

Larry Loos, a sturdy lad who hails from Jackson, Mo., is 17 years old and weighs 177. He made his letter in football three years at Jackson, and there is little doubt but what he will make his letter this year. He has played an exceptionally fine game at guard, when one takes into consideration his small amount of experience in college competition. We hope he can contribute three more years of this good work to the fighting Bearcats.

Ike Howell, the giant sophomore of the Bearcat squad, who stands 6 feet 10 inches tall and weighs 225 pounds, comes from Columbus Ga., and this is his first year as a member of the football squad. He made his letter as a member of the basketball team last year. Ike is a credit to any team. He is a good trainer, sportsman, student, and well-liked by his fellow team mates. He plays a good game at tackle and has the determined spirit to win.

Walter Moore, a 23-year-old senior of the College, weighs 164 pounds and plays his second year as a member of the Bearcat team. He is classed as one of the shiftest back-field men in the M.I.A.A. He can also do a good job at passing and kicking. He can be counted on to gain yards in broken field running. He is a boy to be counted on for some action in a tight game.

W.A.A. TOURNAMENT IS COMPLETED

The last game of the W.A.A. round robin hockey tournament was played at 5 o'clock, Monday, Nov. 8. Marjorie Schneider, Oregon, and Marianna Obermiller, Jackson's teams played a hard fought game, the final score being in favor of Schneider. Graham, Creston, Ia., and Farmer, Cambria, Ia., made the two winning goals. Obermiller succeeded in making the winning score for her team.

Bosch, Maryville, won first place in the tournament, receiving four points. Schneider was second receiving two points, and Obermiller ranked third.

This tournament was a preliminary to the final which will be played sometime in the near future.

Miss Marjorie Powell spent the week-end visiting friends in Independence.

Rockhurst Beats Bearcats in Closing Minutes

Maryville Loses Battle 7 to 0 in the Last Quarter of the Game

For the second time this season, the Bearcats have been the victims of a last quarter passing attack to lose a one-touchdown heartbreaker 7 to 0. Although outplaying the opposition in midfield, the Bearcats were never able to penetrate beyond Rockhurst's 30 yard line. Each time the locals seemed certain to threaten, a penalty, intercepted pass, or fumble quenched the scoring fire, leaving only a puff of steam.

Gene Klecan, Rockhurst quarterback, scored the winning touchdown midway in the final period on an 11 yard forward pass from Gardner. Miller, a Rockhurst lineman, kicked goal, the ball hitting the cross bar and bounding over.

Early in the same period, Maryville advanced the ball to Rockhurst's 30 yard line only to have a successful running play called back, and a 15 yard penalty assessed for holding. On the next play Klecan intercepted a Bearcat forward pass, returning it to midfield. A pass, Gardner to Klecan advanced the Hawks to the 36-yard line. Three running plays netted another first down on Maryville's 24-yard stripe, from where Mathis shot a pass to Kinerk on the 11-yard marker. Then came the game's deciding flips.

Rockhurst's vaunted ground attack failed miserably against the Maryville forward wall. The Bearcats outgained the Hawks from scrimmage, but inability to cope with the deadly forward flips of Gardner cost them the contest.

At the opening of the second half the locals barely missed being caught behind their own goal line. Rockhurst kicked off and just as J. Kurtwright, Maryville quarterback was about to receive, the referee caused the Maryville player to miss the ball, which after being touched rolled behind the goal line. Only some tricky running by McLaughlin, Bearcat safety, saved Maryville from having a safety scored on them.

The first half was played on even terms with neither team taking any chances. In the first quarter, Rockhurst passed and ran the ball to Maryville's 23-yard line, but four running plays were stopped cold and the Bearcats kicked out of danger.

Late in the game Coach Milner had Paisley throwing long forwards in a desperate attempt to score, but none were completed.

The line-ups:

Maryville—Walker, l.e.; Molitoris, l.t.; Zembles, l.g.; Richards, c.; M. Rogers, r.g.; Kious, r.t.; Zuchowski, r.e.; Reital, q.b.; Curtis, l.h.b.; Bernau, r.h.b.; Pelc, f.b. Rockhurst—Kinerk, l.e.; S. Miller, l.t.; Spurck, l.g.; Swift, c.; Mullin, r.g.; Carr, r.t.; Koby, r.e.; Klecan, q.b.; Kramer, l.h.; Gardner, r.h.; I. Miller, f.b.

W.A.A. IN SOCCER GAME

HERE'S the DOPE

By WM. EVANS

M.I.A.A. Standings

	W	L	T	Pct.
Cape Girardeau	3	0	0	1.000
Warrensburg	3	0	0	1.000
Kirksville	1	1	1	.500
Maryville	1	2	1	.333
Rolla	0	1	1	.000
Springfield	0	4	0	.000

Important conference games were a minus quantity last week. The only loop battle saw Kirksville bowl over the hapless Springfield Bears at Springfield in a 20 to 6 contest. This week promises a little more when Warrensburg invades Kirksville in what may have an effect on the conference outcome. Should Kirksville win, which would be an upset, Warrensburg would drop behind Cape Girardeau.

Cape Girardeau entertains Evansville college this week-end in a non-conference engagement. Cape has been unusually successful against out-of-state foes and rates a favorite to keep their record spotless. Last week the Indians downed Carbon-dale, Illinois Teachers 13 to 0.

Rolla continued in her losing ways last week, taking a 19 to 7 trouncing at the hands of the Oklahoma City University Goldbugs. The Miners should break into the win column for the first time since entering the conference two years ago when they entertain Springfield Saturday.

Maryville plays host to the Central Eagles of Fayette in a Dad's day battle tomorrow afternoon. Neither team has an impressive record, but the Bearcats have engaged the toughest opposition in college circles. A superior line makes the locals the favorites in what may turn out to be a wide-open and very entertaining tussle.

COUNCIL MEETING HELD

Marjorie Eppard, Maryville; and Sue Bell, Van Buren, Ark., were this week elected as nominees for the presidency of the Varsity Villagers from which Eula Bowen Rouse, Maryville, recently resigned. Sue Fleming, Graham, and Elizabeth Matheny, Westboro, are nominees for the position of secretary. The Council members decided to make arrangements for a Varsity Villagers page in the Tower.

A co-etiquette session was held this week for all Varsity Villagers. Committees were appointed to plan the tea to be given Sunday afternoon for the Varsity Villagers' housemothers.

C.H.S. Receives New Ditto Machines

The College high school is the possessor of a new black modernistic Ditto machine which was received in the office last week. Its dimensions are about one and one-half feet long by one foot high.

The main advantage of this machine over the old lies in the method by which copy is run off, mainly in the use of a crank. The old method of printing copies was by hand. The new Ditto machine will run off 50 copies from one carbon copy.

DR. OSCAR JACOBSON TALKS ON HOBBIES

How many of the students College have a hobby? Dr. Jacobson head of the University of Oklahoma school of art, stressed importance of having some hobby at a luncheon held honor Tuesday noon, Nov. 11, Residence Hall.

Dr. Jacobson made the point that everyone should have in order that when he grows of the monotony of everyday he may turn to his avocation, refresh his mind. In order to proceed in this purpose, the hobby must be of interest. Dr. Jacobson gave several of avocations being changeable because of the interest the former had for individual.

Dr. Jacobson also stressed importance of art organization create an interest in various of art, either as a vocation, and to establish a appreciation of good art.

S.T.C. Graduate Makes Telescope

(Continued from page 1) in the department of physics University has just completed construction of a cosmic ray scope, which is to count the of cosmic rays that come from various angles of the azimuth. This kind that has been made part of the country.

Cosmic rays are presumed celestial origin. They are upon the earth at all angles all times, penetrating all objects, and even people. The effects produced by cosmic rays and X-rays are somewhat except that cosmic rays have greater energies.

The subject is relatively practically all the work in has been done since the of the facts regarding the have been discovered in the or five years.

In Mexico and points rays come from the west while in the north more the north and south. The predicts the rays will be provided in this vicinity. Cooper it is of interest to Cooper investigate this problem and ones in this locality.

The Geiger-Mueller counter most vital part of the apparatus the most difficult part to Three of these counters are on a shaft. The rest of the ment is for amplifying the pulse. 1500 volts to each counter, in such ionizing particles penetrate counter a pulse is produced pulses are produced simultaneously in the three counters recorded, otherwise no record. The shaft on which the counters are mounted can be any desired angle, and able to count the rays in any particular direction.

Cooper who is from Mo., is working on his degree. He has been working instrument since July.

with Miss DeLuce.

IS ANNOUNCED

and Fred David-
manager, of the 1938

ture taken by Monday evening.

The dead-line for pictures of or-
ganizations has been set for Wednes-
day, Dec. 1. If a student is a mem-
ber of an organization, he may have
a Tower class picture taken any time
before Dec. 1, instead of Nov. 15.

At the Theaters

THE TIVOLI

Tonight—Richard Dix and Fay
Wray in "It Happened in Holly-
wood."

Friday and Saturday—Bargain
shows—Dick Foran, "the singing
cowboy in "Empty Holsters."

Sunday, Monday, and Tuesday,
school matinee 3:45 Tuesday—
Deanna Durbin in, "100 Men and a
Girl," with Leopold Stokowski,
Adolphe Menjou, Alice Brady, Eu-
gene Pallette. Her greatest show.

Next Wed. and Thurs. Stuart Er-
win, Jean Muir, Glenda Farrell, Al-
len Jenkins, "Dance, Charlie,
Dance." An all comedy fun show.

THE MISSOURI

Tonight and Friday, "Marihuana,"
As the name implies, this show is
concerned with the "dope" evil and
its effect on morals.

Saturday night at 10:45 and Sun-
day, Monday, Tuesday—Shirley
Temple in "Heidi". All who have
read this story of life in the Swiss
Alps will be well pleased with this
show in which Shirley takes the
title role to good advantage.

HOME EC. CLASS VISITS LOCAL STORE

Seven College women and Miss
June Cozine of the home econom-
ics department, were guests last
week of Buhler's Market for a dem-
onstration in meats. Last Tuesday
afternoon's visit was a part of a
two weeks' study of meat in the
food problems class.

The meat demonstrated was a
product of the local packing plant.
This was used as an example of the
fact that only interstate shipping
calls for the federal inspection
stamp.

Special emphasis has been placed
on the buying aspect of meat from
the consumer's standpoint. The
course has stressed the fact that
buyers who know meat cuts can
get the excellent pieces for the same
price usually paid for ordinary
pieces when shopping is done in
small markets.

The women in the food problems
class are as follows: Maudine Walk-
er, Holt; Belva Goff, Maryville;
Lois and Dean Miller and La Donna
Switzer, Grant City; Margaret Staf-
ford, Tarkio; and Ella Fluke, Bed-
ford, Ia.

JUNIOR HIGH SCHOOL "LEADER" IS PUBLISHED

Once every month the Junior
High "Leader" is published by the
members of the seventh and eighth
grades. The October issue was re-
leased Monday of this week. It con-
tains original stories, news items,
book reports, and accounts of ex-
periences written by members of the
junior high.

The editorial staff consists of Jean
Phares, editor-in-chief; Bobbie
Burks, business manager; Willa
McJimsey and Herbert Dieterich,
literary editors; Mary Gates and
Charlene Wright, girls' sports; Don-
ald Hartness and Billy Burks, boys'
sports; Louisa Bratcher and Helen
Piverell, school activities; Marjorie
Neal and Mary Ellen Burr, social;
Betty Montgomery and Raymond
Lyle, news; and Wanda Bickett and
John Scott, art.

Jessie Rowe and Georgia McMul-
lin, St. Joseph, spent Sunday visit-
ing in Maryville with Cora and Wil-
liam McMullin, students in the Col-
lege.

S.T.C. Graduate Has Interesting Time Teaching Indians

Miss Miriam Geyer, B.S. '28, Is Now
English Instructor at School
Near Mexican Border

Miss Miriam Geyer, who is now
teaching in the Hachita, N. M., high
school and who formerly taught at
the Navajo reservation north of
Gallup, N. M., was a visitor at the
College Tuesday of this week.

Miss Geyer graduated with a B.S.
degree from the College in 1928
with a major in history. After grad-
uating from this institution she
taught at Grandview, near McFall.
In 1932 she received the Masters de-
gree from the University of Iowa.

After teaching for two years at
Humphreys, Mo., and other parts
of South Missouri, Miss Geyer ob-
tained the position at Hachita, where
she teaches English in the high
school. Hachita is located in the
southwest part of the state close to
the Mexican border.

Mexican students predominate in
the lower grades, but there are
practically none in the high schools,
Miss Geyer stated. She added, "I
like that part of the country and I
like the public schools. This country
is mainly a mining and cattle coun-
try."

Before going to Hachita, Miss
Geyer taught the first three grades
of the day school on the Navajo
reservation. After the first three
grades, the Indians are sent to
boarding schools, she said. Only In-
dians come to this school and the
first thing they do is to learn to
speak English. Since few of them
have English names, and few want
to keep their Navajo name, it is the
responsibility of the teacher to give
them English names.

Miss Geyer continued, "After the
student reaches the second and third
grades, he studies much the same
subject matter as the students do in
our schools. Students take two baths
weekly at school. They also eat the
noon meal at school. They wear
American dress. Indian girls will
seldom wear the 'squaw dress'."

Although the school term is 9
months, the same as it is here, the
teacher is employed for the year
around. For three months in the
summer she goes from Hogan (In-
dian name for their homes) to Ho-
gan instructing the parents in var-
ious ways. She gets a vacation sim-
ilar to any other Civil Service em-
ployee.

N.E.A. TO COOPERATE IN "SCHOOL OF THE AIR"

The American School of the Air
of the Columbia Broadcasting Sys-
tem, one of the tested leaders in rad-
io education, returned to the air for
its ninth season on Monday, Oct. 18,
with an expanded program in which
the National Education Association,
representing three-quarters of a
million teachers and officials, has
joined to enter the schoolroom prop-
er for the first time in its history.

Sterling Fisher, C.B.S. director of
talks and education, has received
the N.E.A.'s acceptance of an invita-
tion to use Columbia's facilities
and participate in preparation and
school utilization of the broadcasts.
Another prominent organization, the
Progressive Education Association of
some 10,000 teachers and admini-
strators, has also accepted an invita-
tion to take part in the develop-
ment and presentation of another
program representing a new depart-
ure in subject matter of radio edu-
cation.

Miss Helen Johnson, director of
broadcasts on the American School
of the Air, has been assured of con-
tinued cooperation by the National
Council of Teachers of English, the
National Council of Teachers of

Geography, the National Vocational
Guidance Association, and Junior
Programs, a group dedicated to im-
proving radio presentations designed
for young listeners.

Each day during the school term,
except Saturdays and Sundays, un-
til May 6, the American School of
the Air will be heard over the net-
work from 2:30 to 3:00 p.m., New
York time. The school will suspend
temporarily during the Christmas
and Easter recesses.

To Present H. S. Musical Assemblies

Each year the music department
of the College sponsors a series of
tours into the various schools of this
district for the purpose of presenting
a worthwhile musical assembly to
those smaller schools who often do
not have the opportunity of hearing
the type of music provided by the
College.

Mr. Irvine, director of music ac-
tivities usually receives a letter
from some school asking that the
College send them an assembly pro-
gram. He then writes to several
other towns nearby and attempts
to arrange an assembly with them
so that the performers can give
three or more concerts in one day.

Requests for assemblies have al-
ready come from Rockport, Ridge-
way, Conception, Mercer, Skidmore,
and North Kansas City. Plans are
being completed to send the first
group of performers on a tour the
first week of December.

Agriculture 41 Has Judging Practice

The agriculture 41 class, that has
been studying dairy cattle, made a
field trip to the College barns last
Thursday for judging practice on the
dairy cattle of the farm.

The College farm has purchased
five pure-bred angus calves aver-
aging about 450 pounds in weight.
These calves will be used experi-
mentally by the agriculture classes.
The calves have been started on
feed.

The cattle raised last year by the
department of agriculture topped
the St. Joseph market when sold
recently.

HELD AMERICAN ART WEEK

The American artist is handicap-
ped by the romance and allure that
the art of the Old World has for
the average person. He is in a sense
competing with the old masters who
are now dead. However, his popu-
larity is increasing. In order that
the average American may come to
know the art of his own country
better, last week was set aside by
the American Artists Professional
League as American Art Week.

The most extensive observance of
this week in our vicinity was held
in Kansas City. At the Nelson-At-
kins Gallery various contemporary
stage designs were exhibited. A
series of broad-casts over KMBC
enabled those who were not in Kan-
sas City to become more familiar
with the subject of American art.
At the end of the week the Art In-
stitute gave every artist in the
neighborhood, who so desired, a
chance to display his work in ex-
hibits.

MR. COOK TO SPEAK

Mr. T. H. Cook of the College de-
partment of social science, will
speak before the meetings of the In-
ternational Relations and Social Sci-
ence clubs at 7:30 o'clock next Tues-
day evening in Social Hall. He will
speak on the subject of the United
States Constitution, and will com-
memorate the 150th anniversary of
the signing of that document, ac-
cording to Robert Phipps, presi-
dent of the clubs.

College Students Learn to Buy, Sell On Stock Market

Members of Corporation Finance
Class Invest \$10,000
Each

In the October issue of the
"Journal of Business Education,"
there appeared an article written by
Mr. Sterling Surrey, in which he
tells how he has been teaching his
class in corporation finance here at
the College.

Mr. Surrey of the department of
business administration, has initiated
into this class, an idea which is
comparatively new in our colleges
today. That is to say that a text-
book is not used in this class by the
students except as a source of refer-
ence rather than a fundamental
instrument of learning.

A great deal of interest has been
shown in Mr. Surrey's class and
several amusing incidents have been
encountered. Each of the twelve
students of this class has made a
careful study of markets and stock
investments and then bought shares
of stock to try his hand in big
business (these stocks are bought
only on paper, of course).

Buford Garner seems to be lead-
ing the class in his net earnings. Af-
ter losing some money on U. S.
Steel when it dropped from 78 to
60 points, he bought 955 shares of
stock at \$1.00 per share in Sea Board
Air Lines which he sold a few days
later at \$3.25 making him a profit of
over \$2,000.

Catherine Carlton has made so
much money that it has become a
worry rather than an enjoyment.
She has \$20,000. invested.

Miller Weeda has been playing the
market very carefully after losing
about \$2,000.00 when stocks took a
dive during the past few weeks. De-
termined not to be discouraged, Mil-
ler started buying stocks on the
margin. He invested about 35 per
cent of his money in conservative
stocks and the rest in speculative
stock. Buying on the margin which
enabled him to purchase a greater
number of shares, has made him
back all that he lost in the market
drop and he is about \$500 to the
good. His largest gain has been in
Phillip Morris stock, which has
paid him \$350 in the last week.

But not all the members of the
class have been faring so well in
their investments. Rex Creighton
came to class last Monday with the
story that he had only \$7,000 left of
his original \$10,000.00 investment,
had lost his notebook and would
like to borrow five cents to buy
himself a new one.

The astounding fact is that Mr.
Surrey is the one who has lost the
most. Perhaps this can be explained
in that he spends so much time help-
ing the others that he doesn't take
the time to watch his own invest-
ments.

COLLEGE HARVESTS CORN

Eight S.T.C. boys, under the sup-
ervision of Mr. Sprague of the Col-
lege of Agriculture, University of
Missouri, harvested the hybrid ex-
perimental corn crop from the Col-
lege test plots Friday and Saturday
of last week.

The corn was planted in 700 plots
averaging ten hills long and two
hills wide and covering about five
acres. The crop from each plot was
weighed and kept separate. Four
plots yielded over 100 bushels to the
acre and one plot ran as high as
105 bushels. The entire harvest from
the five acres netted 350 bushels of
hybrid corn.

The crop will be used for feed on
the College farm. It is not suitable
for hybrid seed. These tests were
made to find out what types of corn
were the best to cross for produc-
ing the highest yielding corn.

"Hay Fever" By O'Neillian Club

(Continued from page 1)
an English diplomat, Byron Brite; Jackie Corinton, a visitor in the Bliss home, Doris Stafford; Sandy Tyrell, another visitor, Rex Steffey; and Clara, a servant in the home, Hilda Hamblin.

"Hay Fever," a play by Noel Howard, has been produced in the Ambassador theatre in London and in the Maxine Elliott theatre in New York. It is a striking comedy and is both hilarious and sophisticated and will require excellent acting, Dr. Kelly said.

The plot concerns the life of a family—a father and mother with their two children, one a daughter and one a son. The mother, Judith Bliss, has been an actress and the comedy of the play centers around her outstanding ability.

Dr. Kelly stated that he hoped to

produce the play before Christmas vacation, and that a definite date will be announced in the near future.

Dads to See Final Home Football Game

(Continued from page 1)
bowed over Missouri Valley 19 to 13 at Marshall, is definitely an improved team. Two weeks ago they held Rockhurst to a 7 to 0 score, the same score as that of the Bearcat-Rockhurst game.

The Eagles are developing rapidly into a smooth passing and running machine. Randolph, Eagle fullback, is an accurate passer, and several backfield and wingmen are capable pass receivers. Considering the strength of the Maryville line, the Eagles are expected to fling passes frequently. When ground plays are used, Hurst and Carle will do most of the ball-lugging. Carle is a fresh-

man from St. Joseph Central high school and has been an outstanding regular all season.

Maryville will out-weigh Central about eight pounds per man in the line with the backfield about even. Stunts by campus organizations will furnish entertainment for the crowd between halves.

The probable starting line-ups are: Maryville—Walker, l.e.; Mollitoris, l.t.; Zembles, l.g.; Richards, c.; M. Rogers, r.g.; Kiou, r.t.; Zuchowski, r.e.; Reital, q.; Bernau, h.b.; Curtis, h.b.; Pelc, f.b.; for Central—Smith, l.e.; Edmonston, l.t.; Holcomb, l.g.; Silverman, c.; Dover, r.g.; Watson, r.t.; Innes, r.e.; Campbell, q.; Hurst, h.b.; Carle, h.b.; Randolph, f.b.

The Writers Club met last Monday night. Members submitted poems, short stories and other types of writing to the club to be criticized.

The membership of the club is growing.

Dads to Arrive Tomorrow Morning

(Continued from page 1)
Remy, Shenandoah, Ia.; Jack Hudson, Lewes, Del.; Thomas Boyd, Forest City. Faculty welcome—President Uel W. Lamkin. Student welcome—John Zuchowski, President of the Student Senate. Response—Rev. D. J. Van Devander.

At twelve fifteen there will be a luncheon in Residence Hall for the dads and their sons or daughters. Frederick Schneider will be toastmaster. Music will be offered by a string trio; welcome to dads will be given by Gara Williams.

The afternoon entertainment will end with a football game between the Bearcats and the Central College Eagles of Fayette.

C.H.S. PENTA CLUB MEETS

Mathematics problems were discussed by the Penta Club, College

high school honorary organization, in a meeting morning. The meeting was order by Cassie McGinnis, president. Erba Thompson, gave the roll call. Parts of constitution, which is being up by the Penta Club meeting discussed and approved.

The business meeting was by the program which followed discussion of star constellation month, Helen Purviance Square and the Magic Triangle. Helen Heflin; Problem, Anna?, Cassie McGinnis.

The make-up class under direction of Dr. Joseph P. Keiman of the speech department the College, has been of the various kinds of make-up.

At the next meeting plans to try out the different types of make-up on.

This class is open to anyone interested in the art of make-up. The class meets every Thursday.

as Welcome
as mail from home...

Anchored 47 miles off shore, the Nantucket Lightship guides traffic on the Atlantic Coast. Mail and supplies come aboard once a month—one of the most welcome arrivals is the supply of Chesterfields.

Chesterfields give more pleasure to smokers wherever they are . . .

On land or sea or in the air Chesterfields satisfy millions all over the world. They're refreshingly milder . . . They're different and better.

Chesterfield
